REPORT OF COMPTROLLER, 1918

COMPTROLLER'S OFFICE, STATE OF FLORIDA,
TALLAHASSEE, JANUARY 1, 1919.

*Honorable Sidney J. Catts,
Governor of Florida.*

SIR:

In pursuance of the requirements of law I have the honor to present herewith a report of the financial condition of the State, and the operations of this office, for the fiscal year ending December 31st, 1918.

FINANCIAL CONDITION.

The State Treasury has for many years met promptly every legal demand upon it by cash payment, and it is a source of satisfaction to state that to the present this good record has not been broken. However, if we are to maintain this condition and keep the Treasury of the State on a cash basis there are certain facts and conditions which it would be very unwise to overlook.

The general revenue fund balance at the close of even numbered years—or those years when the Legislature is not in session—as a rule builds itself up; and in the odd numbered years—those in which regular sessions of the Legislature are held—the payment of the expenses of the legislative session as well as the appropriations other than for regular maintenance expenses of the State government, reduces very much the general revenue balance. Owing to the unusual appropriations of the 1917 Legislature, such as for citrus canker and live stock sanitation, as well as the loss from license taxes, the general revenue balance at the close of 1918 was not propor-

tionately as large as in former years. It would therefore be wise if the Legislature would declare any unusual appropriations made at the coming session to be payable after December 31st, 1919, unless the State Finance Board should determine the same could be sooner paid without causing the State to fail in its ability to pay in cash the regular governmental expenses.

A FRANCHISE TAX TO MEET POSSIBLE LOSS OF CERTAIN REVENUES.

Unless the United States Railroad Administration reverses its ruling the State will lose a very substantial item of general revenue from the loss of the Railroad and Pullman car license taxes for this year, and thereafter, during the time the roads are under the control of the United States Government.

The Railroad and Telegraph license tax paid in 1918 was \$31,790.20, and was collected by the Comptroller promptly for the license year 1918-19 in advance. Only prompt action by the Comptroller saved the tax last year, as the railroads secured from the United States Railroad Administration a ruling almost immediately after paying the tax that the roads were not liable for license taxes.

The Pullman Company paid their percentage tax on gross receipts and license tax up to the date the United States Railroad Administration assumed control of the railroads and Pullman cars, but has refused to pay license taxes or percentage taxes since that date. The Pullman Company license tax is \$5,500.00 per annum and their percentage tax on gross receipts for 1917, the last year for which they paid the tax, was \$6,684.56.

These taxes have heretofore been payable and were collected at a season of the year when the General Revenue balances were at their lowest ebb, i. e., in October and November; hence unless some provision is made

to find other sources of revenue to substitute for the apparent loss, the State Treasury will likely be unable to pay cash on some of its obligations during the last three months of 1919.

To meet this apparent emergency a franchise tax law should be enacted and the payment thereof should be on the first day of October of each year when license taxes are due.

TAX CERTIFICATE DISTRIBUTION WORK CLEARED UP.

Some years ago the distribution of tax certificate funds and the preliminary work incident thereto in the office of the Comptroller was on an average of at least six months behind. Upon assuming the duties of Comptroller it was determined to bring the work up so that funds would be promptly distributed. To this end the active interest of the Clerks of the Circuit Court was sought and with their co-operation the work was soon cleared up.

Attention is called with some pride to the table elsewhere in this report showing that every cent of tax certificate monies on hand or received by the Comptroller during the years 1917 and 1918 was promptly distributed and paid to the State Treasurer and the counties, and not one penny of tax certificate funds was left on hand in the Comptroller's office at the close of the year. December 31st of these years found every tax redemption report received by me worked up and the funds properly distributed.

Results of this work are clearly reflected in the figures shown below:

Tax Redemptions distributed for 12 months	
ending September 30, 1916.....	\$357,960.87
Tax Redemptions distributed for 12 months	
ending September 30, 1917.....	565,949.81

Tax Redemptions distributed for 12 months
 ending September 30, 1918..... 651,300.99

This meant, of course, additional work for the tax redemption department of this office. Instead of one county treasurer to whom county distributions could be made, there were an average of five depositories in each county to which the monies had to be distributed by funds, which also added to the work done in accomplishing the results mentioned.

MORE WORKING SPACE NECESSARY.

For sometime the Comptroller's office has needed more floor space for working quarters and for filing and record room. As each year passes the normal increase in work and the records required to be kept makes the need felt more and more, and the addition by each succeeding Legislature of some new work to this office has resulted in making the want of more working room very acute. The efficient functioning of the several departments of the Comptroller's office in future will be very seriously hampered unless the additional floor space is provided.

It is requested that the Legislature investigate this need and make such provision therefor as their wisdom suggests at the coming session.

ECONOMICAL ADMINISTRATION OF COMPTROLLER'S OFFICE.

The administration of the office of State Comptroller has been conducted by me from the beginning of my term with emphasis on every economy possible. While it is believed that "the laborer is worthy of his hire" and employees should be paid adequate living wages, yet my policy has been not to fill positions during such periods when the services of some one in that particular position were not absolutely essential. In this policy there has

been saved to the State several thousand dollars from appropriations which might have been lawfully spent for clerical help in the Comptroller's office. Positions under the jurisdiction of the State Comptroller specifically authorized by the Legislature, paying fair salaries, have been vacated and no appointment to fill the same made for several months when it was thought that the interest of the State did not absolutely require the position filled just at that time.

While not seeking to make any invidious comparisons, it is thought entirely proper to call the attention of the Legislature to this policy of the Comptroller, for it should be a source of satisfaction to the Legislature that they can safely provide for any actual or prospective need of this office and know that the position authorized by them will not be filled and any appropriation made for this office will not be spent until in the Comptroller's best judgment such is absolutely essential to protect and care for the interest of the State.

ASSISTANT CHIEF CLERK AND OFFICE ACCOUNTANT NEEDED.

No other department at the capitol anywhere nearly approaches the Comptroller's office in the multiplicity and variety of duties required by law to be given attention by the Comptroller. These are constantly increasing, and include matters of considerable importance. The office work has reached the point where an assistant chief clerk, who will also be an accountant for general office work, is very much needed. The best interest of the office, and therefore the State, will be served in providing one. Such a man would be of very material assistance in aiding the chief clerk in co-ordinating the work of the office and attending to emergency accounting work necessary to be done.

It is requested that the Legislature make provision for such assistant.

PENSION PAYMENTS.

Improved methods of handling the clerical work incident to the payment of pensioners have made it possible to pay more promptly and expeditiously the pensioners monthly than it was heretofore to make the payments and handle the clerical work required for such payments quarterly. This has made it possible to release certain clerks provided for the Pension Department and use them on other work of the office where additional clerical assistance was absolutely necessary. While this made no increase in the number of clerks employed yet the designation of their employment as contained in the general appropriation bill should be changed to correspond to the work on which they are now actually engaged.

A recommendation is made to that effect, and the estimates for appropriations needed to carry on the clerical work of this office is made in accordance with the above mentioned recommendations.

BOND TRUSTEES SHOULD REPORT.

The County Finance law provides for financial reports to the Comptroller of practically all county finances, but makes no provision for reports to be made by trustees of Special Road Bond funds.

The law should be so amended as to provide that all trustees of bond funds not already reporting, should make semi-annual reports of their funds to the Comptroller.

SUITS TO QUIET TITLE TO LAND SOLD TO THE STATE FOR TAXES.

Chapter 7406, Acts of 1917, provided that the "State of Florida shall have the right to bring suits" for the purpose of quieting title to lands on which the State holds

tax certificates. It further provided that such suits when brought "shall be brought in the name of the State of Florida by the State Comptroller."

Under the provisions of the said Act counsel was employed to institute two suits in one county. In the meantime certain suits had been brought elsewhere in the State which involved the validity of State tax certificates of similar nature to many of the certificates on which the State must rely in bringing such suits. The Supreme Court in passing on the last named suits found the proceedings of the county commissioners as shown by their minutes, to have been irregular, and the certificates, therefore, not of legal validity. Upon advice of counsel the institution of further suits such as first above mentioned, was discontinued until some remedial legislation could be enacted which would cure the legal defects existing in the levying of the taxes for which and under which levies many tax sale certificates were sold to the State for unpaid taxes.

In the meantime, blank forms of minutes were prepared for use by the several boards of county commissioners in the State, covering the acts of the boards when determining and making the tax levy, and which would cure the defects found in the particular tax certificates involved in the suits which reached the Supreme Court.

It is earnestly recommended that legislation be enacted by the Legislature at its coming session which will cure any existing defects in the proceeding of the county commissioners or other preliminaries incident to the sale of the lands for taxes at which the State tax sale certificates were issued. Without such legislation it would, in my opinion, be unwise for further suits to be brought at this time as provided for in Chapter 7406, Acts of 1917.

It is further recommended that legislation be enacted validating all tax certificates now held by the State.

TAX CERTIFICATES.

The State is directly interested to the extent of the amount of State taxes and expenses of sale in each tax certificate covering land sold to the State for unpaid taxes, and as long as such tax certificates are held by the Clerk of the Circuit Court for the State no suit or proceedings seeking to destroy in whole or in part the lien of the State on the land represented by the tax certificates should be maintained in any court without making the State a party thereto and to this end it is urged that the Legislature designate the State Comptroller to represent the interest of the State in all such proceedings. Supervision of tax certificates being lodged in the Comptroller's office, he should be made a party to the cause.

It is evident that the tax payers of the State are entitled collectively to the same right that is possessed by an individual under the provision of the State Constitution that "No person shall be * * * deprived of * * * property without due process of law."

BACK TAX ASSESSMENTS.

The State loses back taxes in some instances where lands have been unassessed for a number of years by reason of being under a state tax certificate and the state certificate subsequently canceled. The law at present provides (Chap. 5596, Acts of 1907) that tax assessors may assess lands for the years which they have escaped taxation, but such assessments of back taxes are limited to three years.

It is recommended that this law be amended so as to allow assessors to assess arrearages for all the years such lands have escaped taxation instead of limiting the same to three years. It is believed that such a law would cause a great many of the state tax certificates to be redeemed,

for there would be no incentive to permit tax certificates in which defects are known or believed to exist to remain against lands for a term of years as is now the case, and when finally cancelled only three years arrearages are assessable.

WORK OF COLLECTING AUTO LICENSES.

The work incident to the registration of motor vehicles and the collection of the automobile license and issuing the tags and certificates, is placed in the Comptroller's office. While requiring more or less work throughout the year the bulk of the work comes largely within a space of some six weeks or two months. During this time the great amount of clerical assistance necessary to get the applications checked up, classified, recorded and the tags out promptly, requires not only additional clerical help, but requires practically the entire personnel of the regular working force of the office to be concentrated for the time being on this work.

While it can possibly be handled more economically for the State by placing it in the office of the Comptroller, yet should the Legislature devise some other means for handling the work of collecting motor vehicle licenses there would be no objections raised by the Comptroller.

REFUND EXCESS COLLECTIONS ON AUTO LICENSES.

Under Chapter 7275, Acts of 1917, the registration of all motor vehicles using the roads of this State was placed in this office. The amount of license to be collected was based on seating capacity as well as horsepower. This section of the Act was susceptible of different constructions. The license taxes were collected in accordance with my interpretation of the law, which was concurred in by the Attorney General, and which seemed

to be, in my judgment, the intention of the Legislature when the Act was passed. However, the Supreme Court of the State (in a divided opinion), decided the license taxes should be collected up to a certain point on the seating capacity basis and not solely on horsepower. Prior to this decision this office had collected the registration fees on the horse power basis.

In every case where difference in construction of the law caused the payment of more money than was necessary such additional payments should without question be refunded as the decision of the court fixes the liability of the State. It is earnestly recommended that the Legislature authorize the Comptroller to refund over payments to parties who made the same.

CHANGES IN PENSION LAW.

The decrease in the pension roll caused by the number of deaths exceeding the number of new applications granted has resulted in a net decrease of something over nine percent. Since the $2\frac{1}{2}$ mill pension tax has been found sufficient to meet the payments heretofore it is suggested that without any increase in the tax millage levied for pensions there could be now a change made in the law removing the property qualification and also giving some increase in the amount of allowance to pensioners. This appears practicable, especially in view of the increase in taxable valuations which for the current year amounts to slightly more than 9% over last year.

Another change suggested in the pension law is that where it is now required that the pensioner sign his voucher before an officer, that he be permitted to sign either before an officer or before two witnesses. This would save some of the pensioners, especially those upon whom the weight of years is resting heavily, from burdensome trips to find some officer authorized to attest their signatures.

The changes already made by the Comptroller in the monthly payment plan, and also in placing the voucher on the back of the pension warrant, have very much reduced the requirements on the pensioners in the way of filling in voucher forms, etc., as a preliminary to the issue of the warrant, and have been a great help to them.

If the Comptroller should be authorized to accept proofs made by the pensioner signing before two witnesses, as suggested above, it would still further reduce the inconvenience some of the pensioners are now forced to undergo.

BONDS OF COUNTY DEPOSITORIES.

Expeience has demonstrated that it will be to the best interest of the County and County School funds to provide that the bonds of County Depositories should be liable for all monies derived from the sale of bonds issued by the county or any road district, and for all special taxes of the county for interest and sinking fund or of any special road tax district for interest and sinking fund, in addition to the liability that already exists for other county and special funds.

The County School Depositories should be made liable for all monies received from the sale of bonds for special school tax districts and for the interest and sinking fund taxes derived from taxation of such districts, and all other special taxes levied for any school district.

These provisions, of course, would be in addition to the requirements of the present law and would simplify and better protect the different funds. The fiscal year of the county ends September 30th, and County Depositories should be required to give bond on or before that date, for a period of two years, and as the county school fiscal year ends June 30th the County School Depositories should be required to give bond on or before that date for a like period of two years.

If this change was made the bonds would all run for two years, and it would avoid complications that occur from misunderstanding of the two laws now in force providing for County and County School Depositories and for special bonded school tax district depositories. It would also provide for the payment of money of the county road bond fund and the special road district bond funds into the County Depositories. These changes would not interfere with Boards of County Commissioners and County Boards of Public Instruction designating which particular bank should handle certain funds, or fixing the percentage of the total that is to be handled by each bank.

REPEAL OR AMEND CHAPTER 6817, LAWS OF FLORIDA.

Chapter 6817, Acts of 1915, Laws of Florida, provides that municipalities of the State keep books of account and make financial reports at least once each year to the Comptroller. The Act is not clear as to who is responsible for making such reports and has no enforcing feature as to filing such reports. This Act should either be repealed or be vitalized by proper amendment.

OTHER INOPERATIVE STATUTES.

Sections 2659 and 2661, General Statutes, requiring returns and statements to the State Comptroller, are inoperative and of no effect as at present worded, and should be either amended and made enforceable or repealed. Section 2659 is clear enough in what it seeks to require to be done but rests for enforcement on a forfeit—"to be recovered in any action of tort" without making any provision as to what official shall institute such actions or further reference to the manner of proceeding contemplated as the method of penalizing failures

to comply with its provisions. Section 2661 contains no penalty clause or method of enforcing its provisions. These two sections are therefore at present ineffectual and it is recommended they be either amended or repealed.

A BANK GUARANTY LAW.

The guaranty of deposits in banks has been a subject of discussion for some time in this State. Several of the states have such a law either providing for a state guaranty fund, a mandatory guaranty fund provided by an association of the banks and administered by the banks themselves, or a voluntary system which the banks could take advantage of if they chose or could remain out of if they saw fit.

It has been my observation that the benefits now secured to shippers and patrons of common carriers, to policy holders in insurance companies and patrons of other public service corporations or quasi public service corporations, have been secured to them by legislation. If bank depositors are to have the benefits of guaranteed deposits in Florida the proper method of beginning such would be by adequate legislation which would fully protect the depositor and also properly safeguard the banks required to comply with the statutory provisions.

At least two methods of guaranty of deposits, under statutory direction and control, are in my opinion feasible and practicable. Briefly, these plans or methods would be: first, requiring each bank separately and individually to give a surety bond to guarantee its own depositors; and second: requiring all state banks to provide a state guaranty fund, such fund to be provided by the banks in proper and just proportions, and to be limited to such amount as might be found adequate to meet promptly any failure of a state bank.

The Comptroller of the Currency, the official having

supervision of national banks, has recommended a national bank guaranty law. It is believed the time is not far distant when the idea of guaranty of bank deposits will be in almost universal application in this country. It would be pleasing to see the State of Florida among the ranks of states adopting a bank guaranty system at an early date and not be among the stragglers in this progressive movement. The provisions of such a law should be, and doubtless will be, carefully worked out that the banks may be fairly and justly dealt with while at the same time providing a certain and adequate method for payment of all depositors promptly and in full upon the failure of any bank.

My recommendations are made wholly upon what is believed to be best in the way of a broad and proper general policy and not from having in mind any given institution or institutions, for it gives me pleasure to say that the state banks of Florida upon the whole are in a very satisfactory condition.

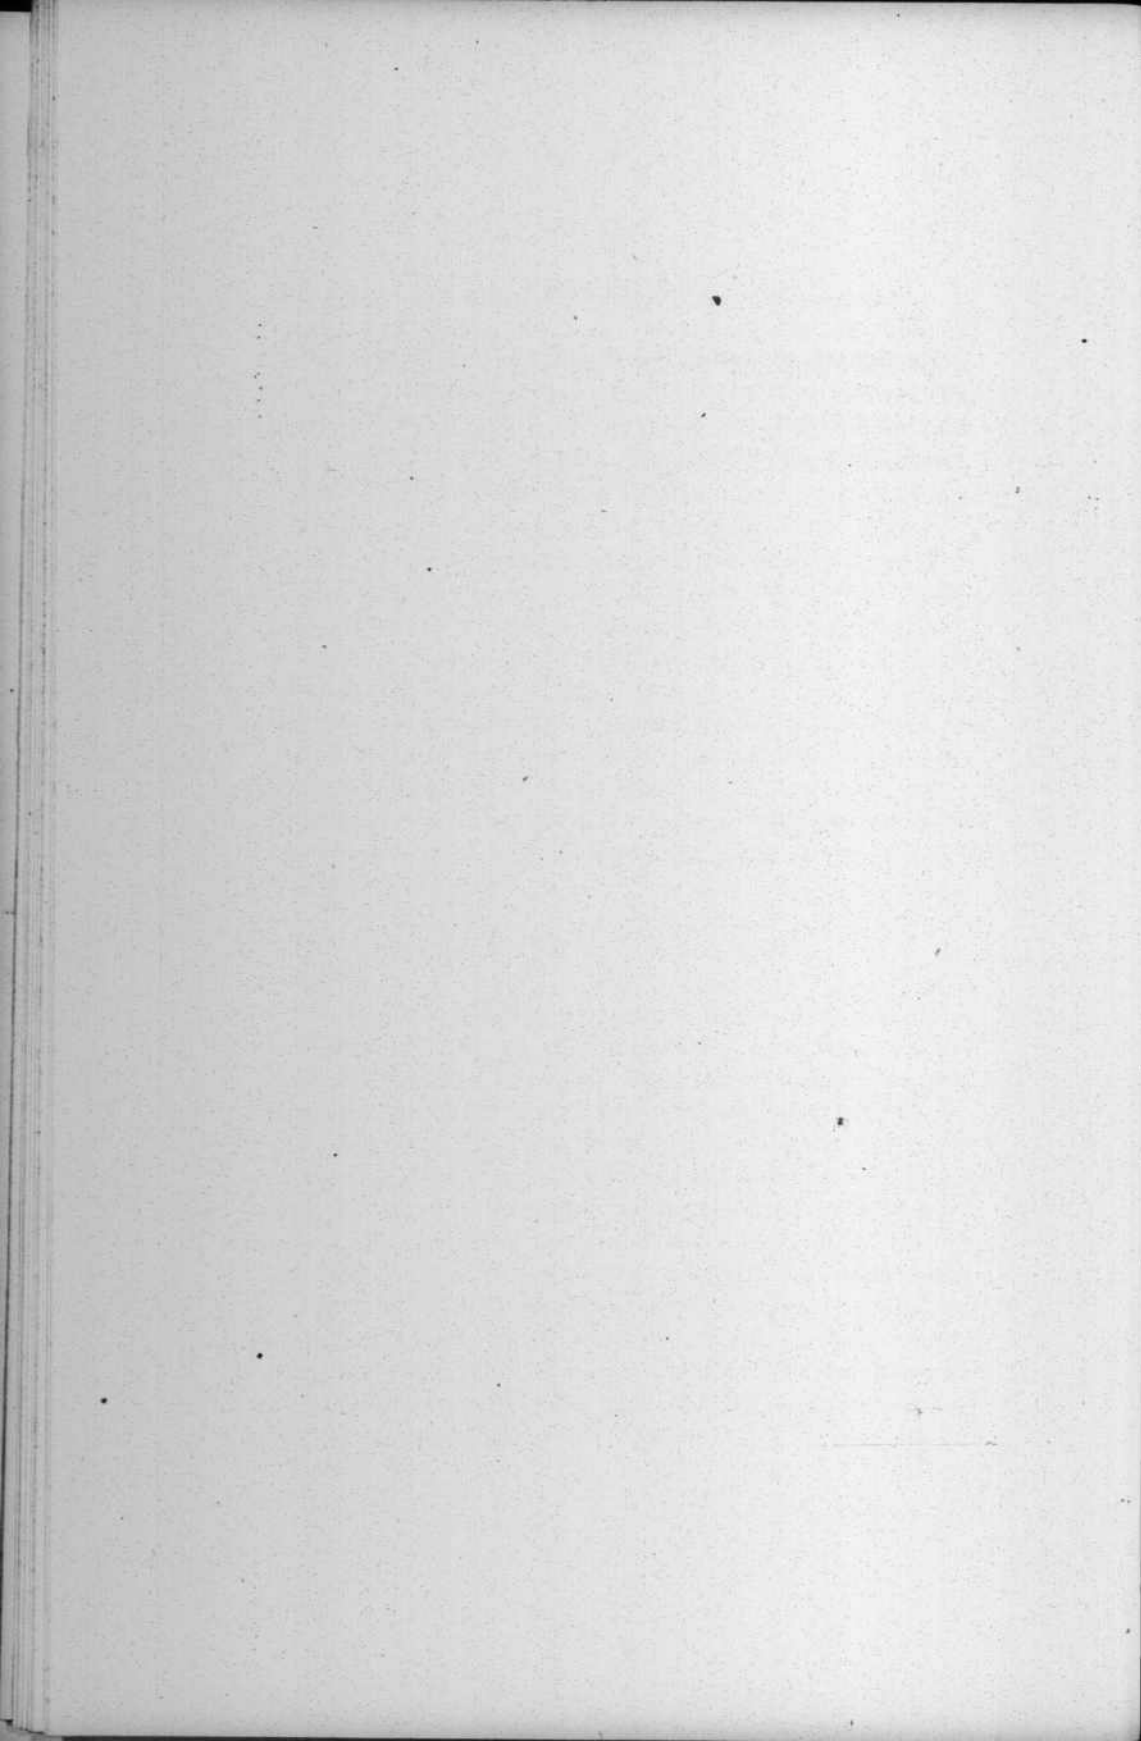

STATE BANKS WAR ACTIVITY.

It is believed that this report would not be complete without some mention of the splendid patriotism exhibited by the State banks of Florida in support of the Nation in the various war activities and particularly in the Liberty loan drives. These institutions gave freely and gladly of their facilities in handling the Liberty bond subscriptions of the general public and were liberal purchasers themselves of Liberty bonds and U. S. Treasury Certificates. Figures showing amounts of bond subscriptions handled through the State banks, as shown in the report of the Banking Department of this office, attest the great work done by the State banks, a work which compares favorably with that of similar institutions throughout the United States.

CONCLUSION.

Particular attention is called to the detailed statements hereto annexed, showing the business transacted in the different departments of this office, which are respectfully submitted as a part of this report.

THE TAX PAYERS DOLLAR.

Taking the average county as a basis the above pictogram illustrates how the tax dollar paid to the County Tax Collector for State and County Taxes is spent. The State receives 23 3/4 cents, 3 cents of which (derived from the Constitutional 1 mill tax), goes directly back to the counties. The county receives 76 1/2 cents of the dollar.

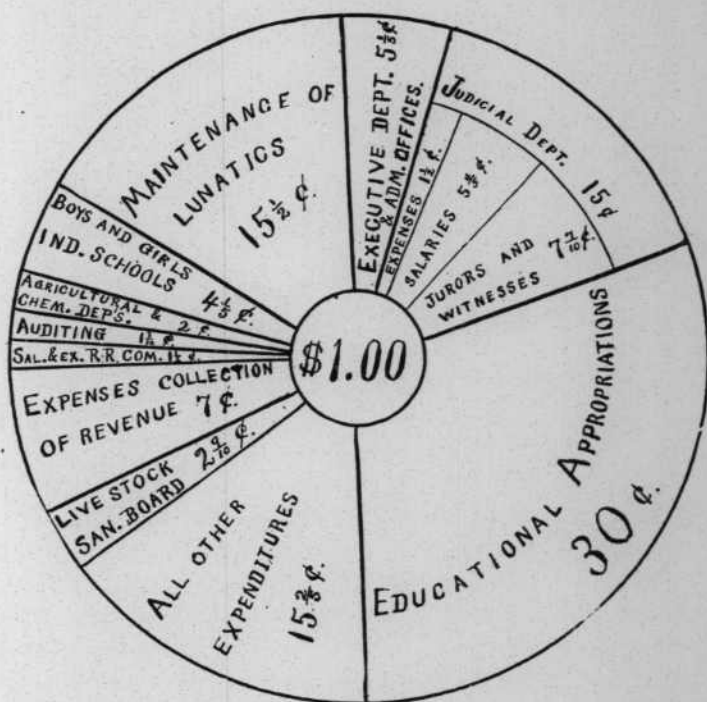

THE STATE'S PART OF THE TAX DOLLAR.

The portion of the tax dollar which is paid to the State, divided on the basis of the State millage, 8 mills in 1918, is divided into funds in the proportions as shown in the above pictogram.

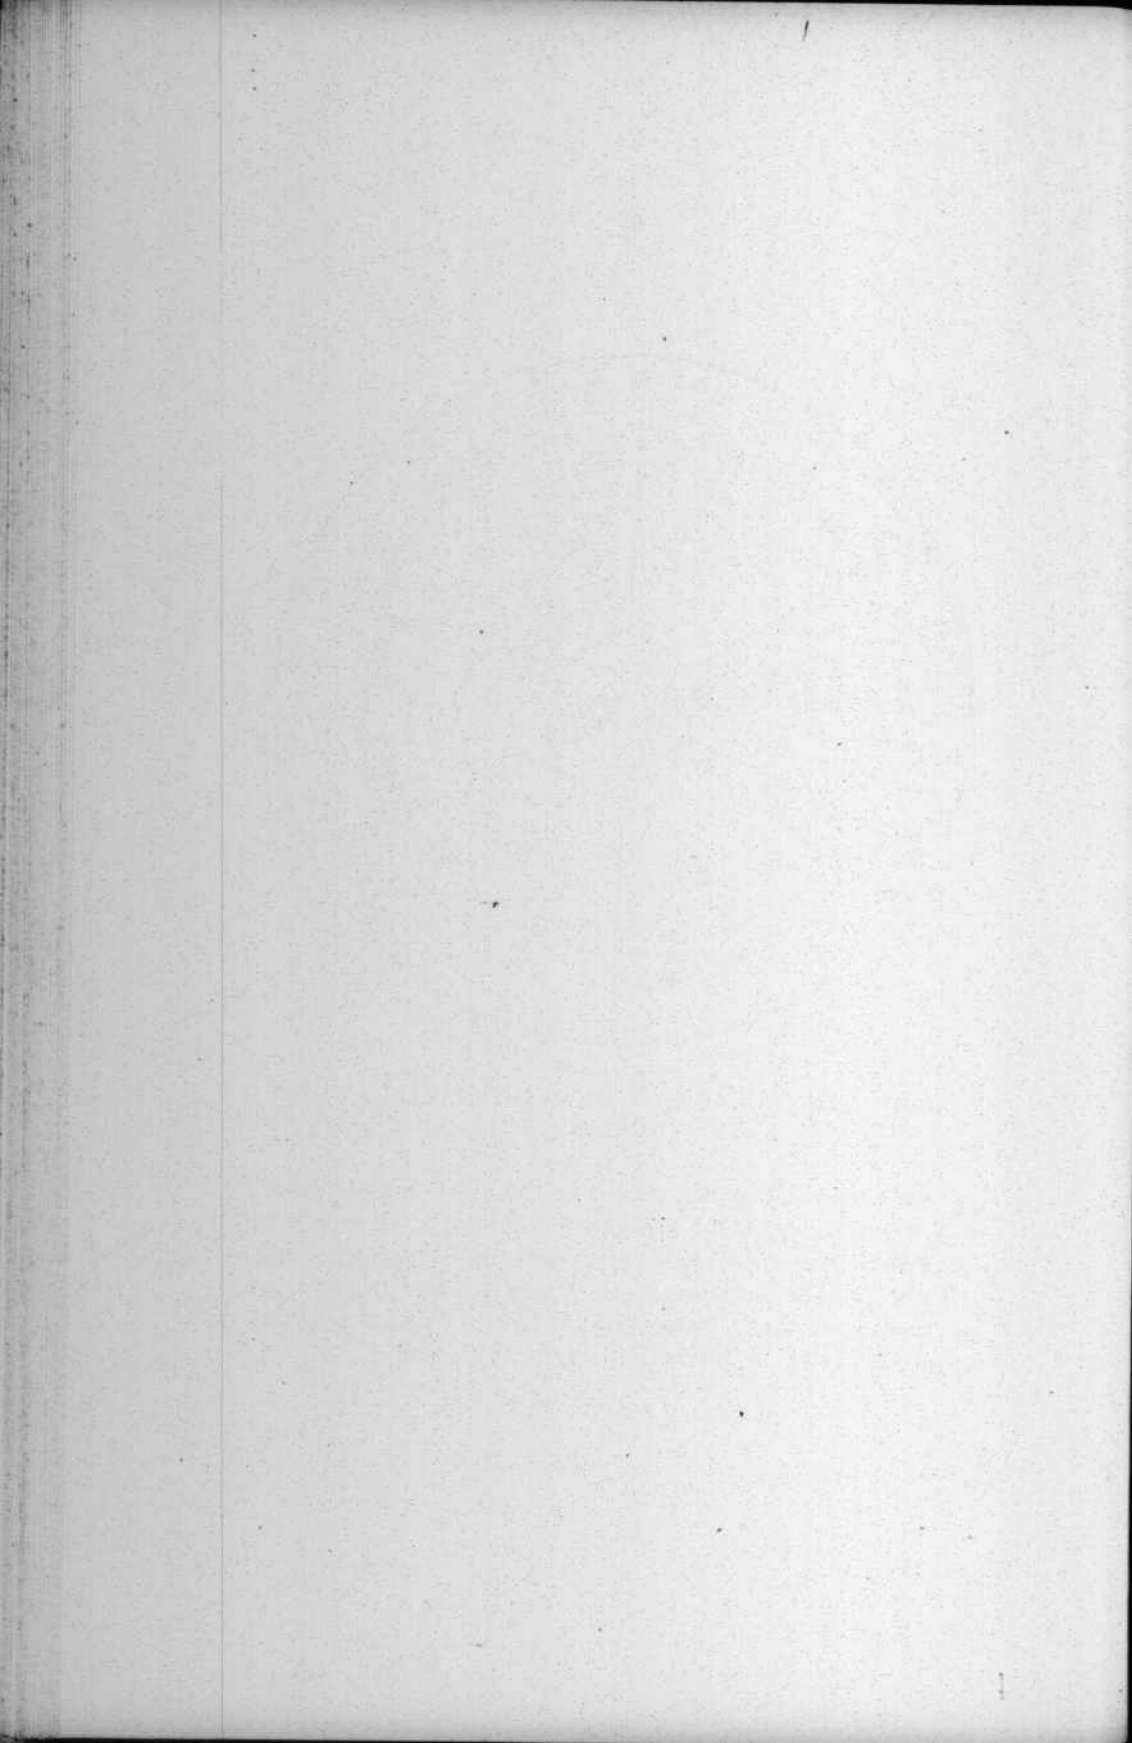

SOURCES OF THE GENERAL REVENUE FUND.

Not all the General Revenue Fund of the State is derived from direct taxation or ad valorem taxes. The above pictogram shows the various sources of the General Revenue Fund of the State, apportioned on a basis of one dollar.

HOW THE GENERAL REVENUE DOLLAR IS SPENT.

The General Revenue Fund is the most important of the State funds to the tax payer. Out of it most of the Legislative appropriations are made, and the larger portion of governmental expenses is paid from it. The above pictogram showing proportionate expenditures from this fund should be of interest to every tax payer.

STATISTICAL TABLES

RAILROAD AND TELEGRAPH LINES.

The annexed tables show in detail the assessment of Railroads and Telegraph lines, made by the Board, consisting of the "Comptroller, Attorney General and State Treasurer," created by Section 46, of Chapter 5596, of the Laws of Florida.

These are followed by statements showing the taxes assessed thereon.

STATEMENT SHOWING THE LENGTH OF MAIN TRACK, BRANCH SWITCH AND SIDE TRACK AND ROLLING STOCK OF EACH RAILROAD IN THE STATE, AS SHOWN BY THE SWORN OFFICIAL RETURNS OF EACH RAILROAD, AND THE VALUATIONS ASSESSED THEREON BY THE STATE RAILROAD ASSESSMENT BOARD FOR 1918.

DISTRIBUTION OF
COUNTY ROAD MOTOR VEHICLE FUND.
(As Provided by Chapter 7275, Acts of 1917.)

Statement of the amounts of the County Road Motor Vehicle Fund set aside to be used in each county of the moneys paid in during the year 1918, by the State Comptroller, under Chapter 7275, Acts of 1917, being 85% of the net receipts for registration under the Motor Vehicle Law; the distribution being based on the assessed property valuations of the counties for the year 1917. This sum constitutes a State Maintenance Fund for State and State Aid roads and bridges under the provisions of said act.

REPORT

Tallahassee, Fla., January 1st, 1919.

Hon. Sidney J. Catts,
Governor of Florida.

Dear Sir:

I have the honor to submit herewith my report of the Banking Department of the State of Florida, for the year ending December 31st, 1918.

Respectfully submitted,

ERNEST AMOS,
Comptroller.

THE LIBERTY LOAN WORK OF THE STATE BANKS

The patriotic work of the State Banks in co-operation with the various war activities of the nation is deserving of the unstinted praise of the public. The State Banks have done nobly in their aid of the Liberty Loans and in handling the subscriptions of the public as well as subscribing liberally to the loans themselves.

The National Banks have received special mention for their part in this work from the Comptroller of the Currency, the Federal official having supervision of the National Banks. The State Banks in this State have been the equal of any in the work above mentioned. Many State Banks of Florida do not have large capital and are located in communities somewhat removed from the money centers, yet some of them placed Liberty Bond subscriptions for themselves and their patrons amounting to more than ten times their capital stock.

I take pleasure in placing in the official records mention of this fine work and thereby indelibly recording it in the archives of the State, so that when the complete history of the war is written the State Banks of Florida will have their just place on the honor roll of those agencies that so unselfishly and splendidly rendered patriotic service to the nation in the greatest crisis of the world's history.

The following is a list of the banks which reported to the State Comptroller on the Liberty Loan subscriptions handled and the amount placed by each:
